

Hypocrisy!

Why are Democrats attacking Ross McGregor for voting to protect innocent crime victims?

Earlier this year, State Representative Ross McGregor and 75 percent of the Ohio General Assembly voted for Senate Bill 184, known as “Castle Doctrine.” Castle Doctrine protects your right to defend yourself, spouse, and children from violent criminals.

Now Chairman Chris Redfern and the Ohio Democratic Party are attacking McGregor, a Republican, for voting for this law and siding with victims who don’t want to be helpless if they or their children are violently attacked.

The Democratic Party is flooding House District 72 with deceptive and vicious mailers showing a photo of parents and their children with the headline: *“You’d do anything to keep them safe... but State Representative Ross McGregor is making it harder to do by voting to allow guns into school zones.”* Recipients of the mailer are urged to “fire McGregor” over his support for SB184.

The truth is that the only thing the new law changed regarding schools was to allow citizens with a state-approved concealed handgun license to pick up or drop off their child on school property.

Plus, Redfern and the Ohio Democratic Party are forgetting that a majority of its own caucus members in the House, including Chairman Redfern himself, voted for this popular bill, and Democratic Governor Ted Strickland enthusiastically signed it into law.

In recent years, Democrats have said they could be trusted to defend the Second Amendment and protect the gun rights that a majority of Ohioans support. But now we see their hypocrisy.

Call the Ohio Democratic Party toll-free: **1-877-644-6336**. Urge them to stop these deceptive attacks and stop siding with violent criminals. Ross McGregor and those who rightly voted to protect innocent crime victims deserve our support.
