

# Ohio District 57 Representative **Matt Lundy LIED!**

When Democrat Matt Lundy needed gun owners' votes, he told them what they wanted to hear. But now in office, he is not honoring his promises.

On the Buckeye Firearms Association 2010 Candidate Survey, we asked him about two key components addressed in HB45/SB17 (pending car and restaurant carry legislation).

Lundy told gun owners he was with them all the way. Here is how he answered our specific questions:

Question 15 - Complying with confusing and unnecessary car carry restrictions continues to be a serious problem for Concealed Handgun License holders. Will you support legislation that protects Ohio license holders and out-of-state visitors by removing these restrictions?

Lundy answered, "Yes."

Question 16 - It is a felony to carry a firearm into restaurants and other locations that serve alcohol for consumption on premises. Will you support eliminating that restriction for concealed handgun license holders?

Lundy answered, "Yes. But only if the license holder is not consuming alcohol, intoxicated, or under the influence."

Without his "Yes" answers, Lundy would not have qualified for the "A" grade we gave him, let alone the endorsement that came with it.

**Matt Lundy gave gun owners his word that if they voted for him, he would be with them when they needed his vote.**

**Now that we need his support on these issues, he is turning his back on us and the Ohio gun owners he represents.**

Just one month after his re-election last November, Lundy was asked to vote for a discharge petition that would have forced a vote on car and restaurant carry rules fix legislation.

**Lundy voted "No."**

Two months later, when the House committee he sits on began hearings on a new version of the same legislation, **Lundy appeared passionate in his opposition to the bill.**

When it came time for the committee to vote, **he introduced three poison pill amendments, including one to make the names of concealed handgun license holders public record.**

While we wish to keep survey results confidential, we will never provide cover for a candidate who lies to get our support and win an election.

Whether a gun owner or not, you deserve honesty from candidates and elected officials on their positions.

**If Matt Lundy lied about supporting the rights of gun owners in Ohio, what else has he lied about?**
